Communication	Teamwork	Problem Solving
Time Management	Adaptability	Leadership
Empathy	Conflict Resolution	Creativity

// Leadership skills

Critical Thinking	Cultural Sensitivity	Conflict Resolution
Decision Making	Visionary Thinking	Team Building
Strategic Planning	Emotional Intelligence	Effictive Communication

From the sun-kissed streets of Madrid to the bustling heart of Berlin, I had the opportunity to have several international experiences. 🌍

From childhood, computers weren't just toys; they were puzzles waiting to be solved. I've been the computer guru since my playground days. 💻 But here's the kicker: I don't just code. I craft. Design, interface, experience - they're all part of my digital symphony.

Let's not just build. Let's innovate, design, and revolutionize. Why settle for ordinary when we can blend code and creativity to make something extraordinary?

// My experience

Work | Volunteer | Education

Jan 2021
3.5 years

Chief Technology Officer

Heading Development at The Totem Studio, I ensured top-notch application development and client collaboration. My leadership was crucial in delivering high-quality products, managing a developer team, and ensuring successful project launches.
