## // Leadership skills

Critical Thinking	Strategic Planning	Conflict Resolution
Decision Making	Visionary Thinking	Team Building
Strategic Planning	Emotional Intelligence	Efficiente Communication

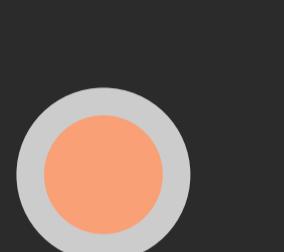

Hi! I'm Kike Tordera.

I was born and raised in Madrid, Spain, and currently reside in Berlin, Germany.

I have a solid base in programming thanks to my studies and my international experience. Since I was very young I've always been gutting and fixing computers.

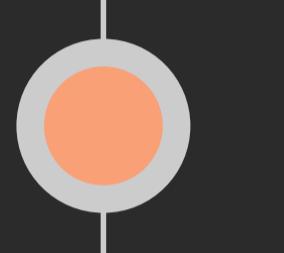

I think the design and interface part is as important as the code, and I think the whole is much greater than the sum of the parts.

## // My skills

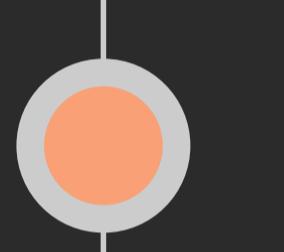

### • Senior Mobile Developer

I developed a native app that, through Machine Learning algorithms, is able to follow the user's glance to make heat-maps and make UX/UI research based on real data to be able to make user research at a fraction of the cost that using traditional approaches.

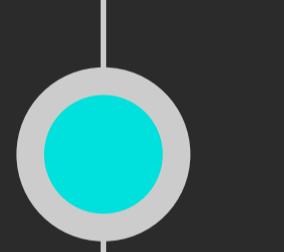

### • Senior Full Stack Developer & UI Designer

Head of software engineering and interface design. Mainly full stack programmer in web App development, and also design and development of the interfaces, animations and delivery of technical projects.

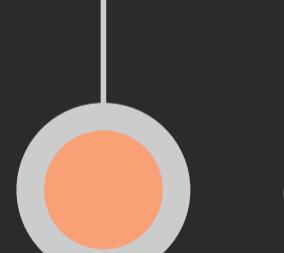

### • Full Stack Developer & UI Designer

I have been working in Kenya with this NGO to develop a web application for remote areas that is offline and adapted to low literacy.

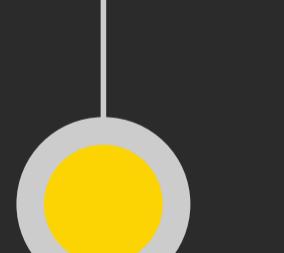

### • Mentor in design and Programming

As part of the final project of my engineering studies, I was in Kenya teaching web design and programming in the rural area of Turkana. It was an unforgettable experience.

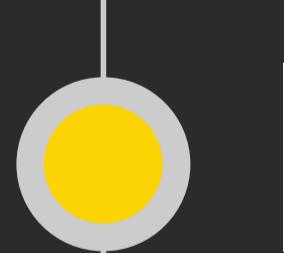

### • Web maintenance technician

While I was finishing the last months of my degree, I was hired by the Universidad Politécnica de Valencia to maintain their web platform.

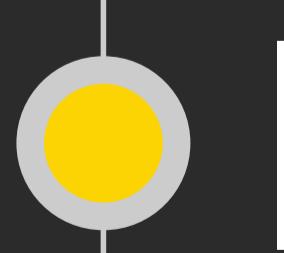

### • Software Engineering

While I was finishing the last months of my degree, I was hired by the Universidad Politécnica de Valencia to maintain their web platform.

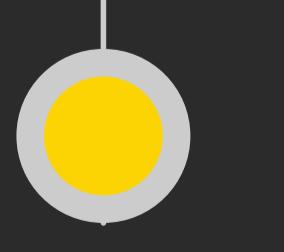

### • iOS Developer

I was hired to do an internship in a software development company in Macedonia. I significantly improved my skills as a mobile App developer.

### • Android Developer

I was accepted for an internship at the Mongolian University of Science and Technology. I started to take my first steps as an Android App developer.

### • Responsible delegate

In my first year, I was elected as a delegate of the International Internship Exchange Association for Technical Students (IAESTE) of the School of Computer Engineering of the Polytechnic University of Valencia.
